

PITCHER

GET Removal Tool

SAFER **FASTER**

Beltor introduces the *Pitcher* – the safest and fastest way to remove GET from excavators, shovels, dozers and graders.

Using a small hydraulic ram, the Pitcher eliminates the need for hammers to remove locking pins for GET.

Reduce downtime with the use of this certified handheld device, its compact size makes it perfect for in-pit GET removal

The Beltor *Pitcher* is available in a range of sizes to suit all major types of excavators, shovels, dozers and graders.

Eliminate the use of hammers when removing GET
